The NEXT GENERATION in soft-tissue therapy!

"I had a sore achilles tendon that recurred over 3-4 years, but had worsened over the last 4-5 months. One visit and I immediately found relief. One more visit & my Achilles tendonitis is not an issue for me."

Aaron Jones – Bald Hills, Queensland

Seminar Dates & Venue

Consult the website: www.goltechtherapy.com

Course Includes

6 full days of training (9 am to 5 pm daily)

With an experienced professional. Paul commenced practice in 1986.

Comprehensive Textbook

516 pages, fully illustrated in colour. *Plus* "Assessment Aid" tables and more.

DVDs: Set of 6 DVDs covering the entire course.

Certificate: Certificate stating completion of course.

Website Listing: as a Goltech® therapist.

Client Handout Files: Website access to 160+ PDF files covering most presenting pathologies.

DL & A4 Brochures in PDF format: Carefully prepared and designed to explain the basics of this new technique to potential clients. Customize this with your own clinic details.

AUS \$2750 (Includes GST)

Become a *specialist* in a *revolutionary* technique in *one* 6 day intensive!

www.goltechtherapy.com

What is Goltech® ?

Goltech® is a revolutionary and advanced approach to the remediation of musculo-skeletal disorders.

It easily and efficiently restores normal musculo-skeletal function.

New concepts such as the “elastic resilience” of the myofascial network, a new approach to cross-fibre muscle work, and a ground-breaking technique for rapidly releasing myofascial tension and hardening place Goltech® light-years ahead of predecessors.

Goltech® emerged from of a flash of insight in the late 1980s followed by more than 25 years of subsequent development and refinement.

Why Train in Goltech® ?

1. Goltech® treatment procedures are *quick to apply* and produce *rapid relief*. It is possible to **treat more clients per hour and more clients per day**.
2. Goltech® may assist *long-standing intractable problems* where other therapies fail. *Gain that all-important competitive edge over rivals*.
3. Goltech® materials are *FREE* if you train with Paul Davies: 6 DVDs (detailed menus with over 10 hours of teaching); 160+ client handouts; and a full-colour 516 page textbook containing 337 beautiful anatomical drawings & schematics and 55 differential assessment tables. Make *accurate assessment* a *hallmark* of your practice!

Read the following testimonies and be astonished.

Practitioner Testimonies

I was lucky to attend a training session with Paul Davies to learn about his Goltech® system of tendon manipulation and myofascial release. **I have attended many courses over the years that promise great things but sadly a lot of these modalities just don't deliver. Goltech® Therapy has been one of the first to make good on its promises.** So I was

thrilled when I learned that Paul was putting together a complete system to educate therapists about Goltech® Therapy. He has produced a manual that is second to none, and the accompanying DVDs are like sitting in on a training course where every possible scenario is covered in great detail.

I use Goltech® Therapy every day in my clinic. It is an invaluable part of my technique 'toolkit', and it produces results that other practitioners just don't achieve. **Whether it is neck pain, nerve impingements, carpal tunnel or back pain Goltech® Therapy gets the job done every time.**

Wayne Stafford. Myotherapist and Soft-Tissue Therapist. Balwyn, Victoria, Australia

I have had the great fortune to attend workshops with some of Australia's premier soft-tissue therapists and I consider Paul Davies deserves recognition as a leader in this field for his work with Goltech®.

Australia has produced a handful of pioneers in muscle therapy who have treated thousands of people with great success using unique tissue rolling techniques. **Until meeting Paul Davies, I had always had difficulty with some of the explanations as to why this style of tissue rolling works** and why it should be used in preference to other soft-tissue techniques. The brilliance of Paul Davies is that **he has been able to explain and expand on these concepts** in a way that allows for a far greater understanding of the technique and its application. **I would recommend the Goltech® soft-tissue method to anyone with an interest in the treatment of musculoskeletal pain.**

Dr Wayne Sibson. B Sc, Masters of Health Science (osteopathy), Grad Dip spinal manipulation. Former president Australian Osteopathic Assoc (WA branch)

Client Testimonies

Paul repaired my right ankle, right shoulder, right tennis elbow and my right hand in one visit,

The shoulder I had first injured in 1984, then again in 1987, and again in 1991. Fixing that was remarkable enough.

But it was the freeing up of my right hand that really amazed me. Since a workplace incident in 2006 I could never close my fingers. **Paul got me to close my hand up to make a fist in just a couple of minutes!** I was impressed to say the least!

Don McKenzie – Bracken Ridge, Queensland

I've had back problems for over 6 years...and it has caused me a lot of pain. I've paid hundreds of dollars to Chiropractors, Massage Therapists and Acupuncture but none ever fix the problem. **One appointment with Paul and my back was in shape again!**

Marina Roper - Caboolture, Queensland

Paul is amazing! **I'm 25 and a nurse with back pain.** My doctor prescribed drugs and rest, but the pain continued **for more than 2 years.** I've had scans and physiotherapy but all to no avail. **One appointment with Paul and I am pain free and drug free for a whole year.** Thank you so much. I feel young again!

Olivia Wright – Strathpine, Queensland

I have suffered with Plantar Fasciitis for 19 years. Orthotics have helped but other treatments with massage and antiinflammatories have mostly failed. **One treatment with Paul and the condition no longer affects me.**

Felicity Capelli – Petrie, Queensland
